Dear friend of Leadership Stockton,

The Leadership Class of 2018 is assisting the Stockton Teen Impact Center and Children's Museum of Stockton in revitalizing their facilities after many years of neglect caused by the City of Stockton financial crisis. We have named this year's project "I.M.P.A.C.T" (Improve-Mentor-Promote-Advance our Children and Teens). We hope that with your support we can provide the much needed community investment, engagement and physical upgrades to support these two important organizations.

The teen center serves as a positive and safe environment for teenagers throughout Stockton. Teen activities include open mic nights and performances, sports tournaments, arts and crafts and cultural activities. The center also offers a climbing wall, computer room, library, meeting rooms, and dance room. Over 1,000 visitors come through the center each month.

The Children's Museum serves as a safe, fun and educational experience for the children of Stockton and surrounding cities. The museum currently has over 40 hands-on interactive exhibits ranging from a grocery store, television studio, bank, police car, fire truck and outdoor play structure. The museum is also known for its iconic toy soldiers that stand at attention on the outside of the facility.

Our plan at the teen center is to repair the bowling alley so that it can be fully functional, have a working snack bar, install Wi-Fi throughout the building and create a mentorship program so the teens can interact with local businesses and community leaders.

Our plan for the Children's Museum is to give the toy soldiers a fresh coat of paint and update the playground area out back. Both areas are showing their age.

We would be grateful if you assisted our organization by sponsoring any part of this important project. Attached are various levels of sponsorship to consider. Any support you are able to give us will be greatly appreciated.
